

ENERGY CAFÉ

making & saving energy for York

Mon 2nd July 7:30pm-9:30pm

Fortyfive Vinyl Café, 29 Micklegate, YO1 6JH

Making homes energy efficient makes them more comfortable, lowers energy bills and saves carbon. So what's stopping us and what can we do about it? Join our discussion and get advice from:

Local architect Phil Bixby designs highly energy efficient Passivhauses and has recently eco-refurbished his Victorian terrace to a similar standard

James Newton of Native Architects and YorSpace is an advocate of natural building materials and community solutions to both housing and energy issues

**Entry:
by donation**

Mike Bird is Associate Director at Arcus Consultancy Services and has managed the development of various renewable energy projects including solar PV and wind

A wishlist of policies suggested on the night will be sent to York MPs as part of the 'Speak Up' week of lobbying on climate change.

Event organised by York Community Energy and St Nicks, as part of the Community Energy Fortnight, York Open Eco Homes and One Planet York.
